7. Add Jar to the project.

/usr/local/hadoop/hadoop-2.7.2/share/hadoop/Command$

/usr/local/hadoop/hadoop-2.7.2/share/hadoop/mapreduce

8. Word Count

9. Create Jar File

10. Export Jar File

11. Go back to old terminal for execution of word Count program.

12. To view results in old Terminal

$hdfs dfs-cat /usr/local/hadoop/output/part-r-00000

13. To Remove folders created using hdfs

$hdfs dfs-rm-R /usr/local/hadoop/output.

Result :- Hence, Launch the hadoop 2.x and perform Map Reduce program for word Count problem was done Success fully.
